团队项目

基于增强现实技术的 遗址遗迹复原及交互改进设计

Augmented Reality Based
Site Remains Restoration and Interaction Improvement Design

UXDA国际用户体验创新大赛
全国三等奖

项目简介

借助增强现实技术，古代遗址和遗迹将以全新的方式复现在现实世界中，让游客仿佛穿越回历史。我们还融合了交互性的元素，让游客能够与虚拟场景进行互动，深入了解古代文明的生活和文化。这将为参观者带来独特而难忘的文化遗产体验，让旅游变得更加丰富和有趣。

Project Intriduction

With the help of augmented reality technology, ancient sites will be reproduced in a new way, allowing visitors to feel as if they are traveling through history. Visitors will be able to interact with the virtual scenes and gain insight into the life and culture of ancient civilizations. A unique and unforgettable cultural heritage experience for visitors.
